

**Exquisite, nowhere**  
research boreholes  
(USGS DS1058  $n=2$ ; East River  $n=4$ )

**Abundant, depth-resolved**

state driller's logs (millions)  
harmonized by THIS WORK

**Coarse, everywhere**

surface lithology / permeability maps  
(GLiM, GLHYMPS; Moosdorf 2010)

Spatial availability (nowhere → everywhere)

Subsurface detail (coarse → depth-resolved)
